

**RIDGEWOOD VETERINARY HOSPITAL
2009 Bearded Dragon Biliary Research Project**

Participant Instructions

For those willing to participate in this study please follow the subsequent instructions:

1. Please call the Ridgewood Office to notify us of your willingness to participate and schedule a time on August 2nd, 2009 to bring your pet(s) in for the necessary free testing. If you are unable to attend that date please call and give them your name and contact information so you can be notified of the next date.
2. Please fill out all enclosed forms *prior* to the study date. Fill out one history for m (Form 2) for each animal that will be part of the study. If you need more forms you are welcome to photo copy as many as needed or more can be provided to you.
3. Please fast (no food or water) the animal for 24 hours prior to the study so their stomach will be empty for the ultrasound.

Look forward to seeing you at the Ridgewood Veterinary Hospital
Feel free to call if you have any questions
